Alle Aufgaben sind entweder erledigt, oder sind in der Bearbeitung

### WAS FÜR PROBLEME GAB ES?

- 1. Wenig Zeit (Uni Abgaben)
- 2. Erstellung der VM Instanzen (Probleme mit Host)
- 3. Kubernetes deployment war mehrmals "gefreezt"
- 4. Sock-Shop hat erreichbarkeit Probleme. GAB ES KOMMUNIKATIONSPROBLEME?

Nein:)

### WAREN DIE AUFWANDSSCHÄTZUNGEN REALISTISCH?

Obwohl wir wieder spät angefangen haben, haben wir sogar mehr erreicht als geplant wurde. Also Zeit war nicht realistisch eingeschätzt :)
